

## What

AI-assisted proprietary trading for FX & Equities Markets

## Why

Manual day-trading is an extremely energy-intensive task, we decided to try automating the process

## Features

Automated trading, built on MT4's trading infrastructure, allowing us to switch providers with ease

## Features++

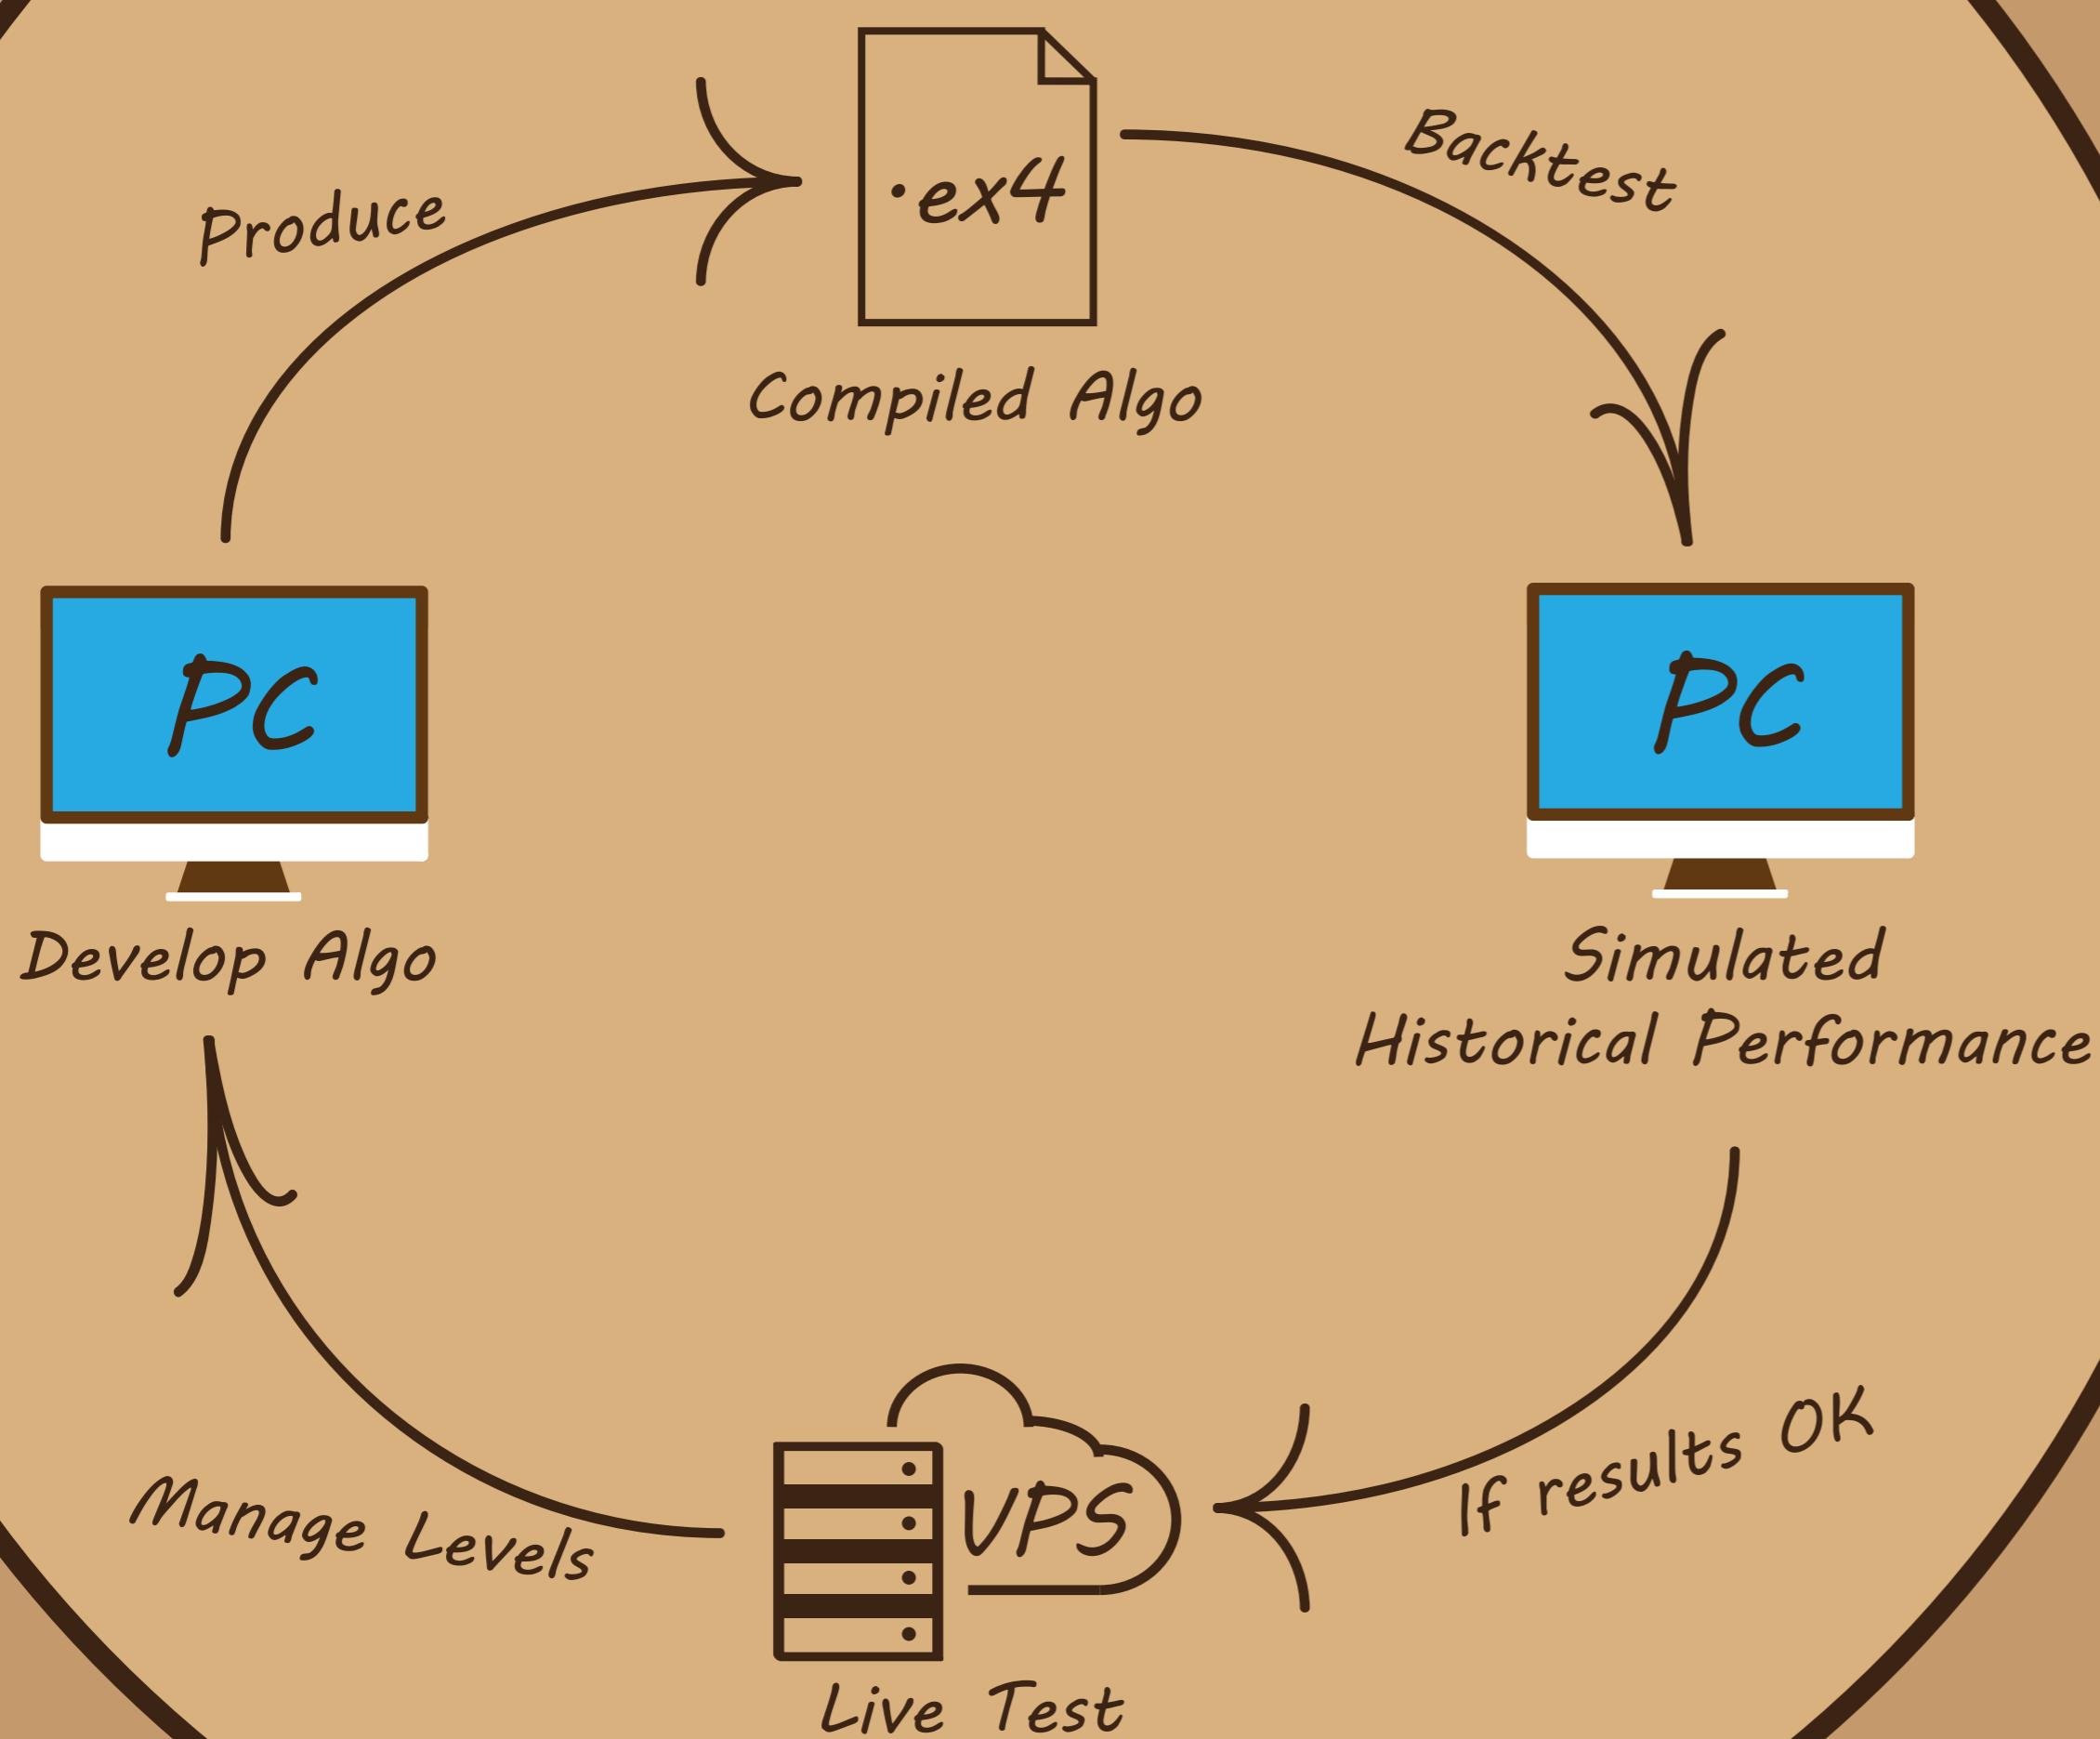

A Web App with our trading signals, embedded TA tools and live demo trading with leaderboard

# CTUPUS™

<https://octopus.azurewebsites.net>

## How it works

## Stack

ASP.NET

MQL

4

YAHOO! FINANCE

& many more...
